Summer 2016: Life by the Spirit

## Life by the Spirit

This week we're focusing on FAITHFULNESS! Don't forget there are solitude guides in the lounge above the mailboxes, if you are interested. Also, take time during solitude to learn more about faithfulness, reflect on how others show faithfulness, and how you can show faithfulness in your life!

*Isabel and Lilly getting ready for dinner!*

## Weekly Challenge:

Look for ways that your fellow staff members are portraying faithfulness in their service areas. Write the word "faithfulness" and their names on a piece of paper fruit, located in the lounge, and hang it up on the wall, on the tree!

## Staff Outing!

This week our staff outing will be a trip to the Moyers' house! We will have a bonfire, weather permitting, and snacks! If it rains, we will hang out inside their house!

*Amber's taking the kiddos to the pool!*

# Seedlings of Advise

It's SUMMERTIME and this week it's sure starting to feel like it! This week we turned to the staff to find out their tips on making the best s'mores, as a great summer treat:

Joy: For fun I like to stick the marshmallow into the flames until it catches on fire and wave it around like a liberty torch, but if I'm making one for myself, I use lots of chocolate and two marshmallows.

Katrina: The marshmallow has to be perfectly roasted until it is golden brown, and I use a Reese's peanut butter cup in between the graham crackers.

Andy: I make mine in a hobo pie maker with peanut butter.

Cheyenne: I use a Reese's instead of the chocolate and use a golden marshmallow.

Taylor: Roast the marshmallow until it is bronze.

Anna: Hold it above the fire, so that it gets golden, and use a Reese's peanut butter cup

Marissa: Make sure you get your crackers and chocolate ready BEFORE you start, and make sure the marshmallow is golden.

## Jokes of the Week!

Q: What type of fruit can fix your sink?

A: A PLUM-ber!

Q: What type of fruit do trees like best?

A: The PINE-apple!
